DOWNTOWN NASHVILLE

Nashville, TN // Over the Years

The Nashville Skyline has been in a permanent state of transformation over the last 8 – 10 years. As a member of the Nashville engineering community for over 30 years, S&ME is proud to have played a part in the ever-evolving view of downtown. From critical pieces of infrastructure such as parking garages and transit centers, to integral cornerstones of downtown entertainment like Broadway honky-tonks and hotels, S&ME has touched every corner of Music City. The S&ME team lives, works, and plays in our city. Our team has a vested interest in seeing our city succeed – from grabbing a drink on Broadway, to attending downtown shows, to yes – rooting on the Titans, we're excited to see Nashville's urban core continue to prosper, for visitors and locals alike. The aerial image below shows a few of the nearby projects that our team has been engaged with over the past decade.
